May 07, Lisa Morin rated it really liked it Shelves: Misty's parents run a business that buys furniture and stuff after someone passes away so her house is filled with cast off junk the family can't sell in their antique store. This made me laugh.

Yet it appears all she gets is yelled at for placing herself in danger. If things were not confused before, it is utter chaos afterwards. The ending was very unexpected. The story was so well told that I read it in one sitting.
