Issue 1 Issue 2 Issue 3. The Phoenix region faces each of these challenges today. That means it will one day pass us in a great whoosh.

Google and other major companies are acquiring artificial intelligence and... Sure, guests were probably not going to shrink down to the size of an atom anytime soon, but advances in microbiology and the further exploration of space would surely impact their lives. There are a hundred futuristic problems, a thousand little incremental changes in technology and policy that have advantaged legacy energy providers and continuously crippled the solar industry. We analyzed the consistency among all scenario elements, and generated , computer-based combinations of the scenario elements.

In other words, Lanier is here addressing a central problem that others have... was recently interviewed on television about his most recent book, *Who Owns the Future?*
