I found it difficult to drum up interest in nuclear and radiological terrorism, which is the subject matter as the novel begins. Brockton begins interviewing a former Manhattan Project employee who has ties to the dead scientist, and the team of Jefferson Bass allows the elderly woman to narrate several sections of the novel in first-person voice. I really love this series as the forensic anthropology is based on the groundbreaking forensic science that has been learned from the real life University of Tennessee's Anthropology Research Facility nicknamed the "body farm".

The mystery itself was interesting and well-developed. This is not light reading. Lists with This Book. Onward and upward to the next. The series is improving as it goes along, and this book gains a star over its predecessors. This book besides being a very interesting mystery was quite an interesting history of Oak Ridge which is right next door to Knoxville, Tn.

The forensic detective assistant, Miranda, was also treated for radiation. The book includes a note at the novel's end delineating fact from fiction in the book.
