They are tough so last long but throw good sparks. PaleoPlanet A primitive skills and aboriginal technology message board for those interested in Stone Age, Bushcraft, Survival skills and Pal. Figure 1 shows a core that has been worked in preparation for taking off blade flakes.

It was also apparent that all the flints we tested outperformed the other varieties. Larger solid head bopper for driving off the blades. A great many of the cherts that flintknappers are using to make arrowheads and points work beautifully for settin' off "Ol' Ticklicker", so if you flintknap experiment with the material you are using. These have to be manipulated a little to make good gunflints.

The ones on the bottom only have the one side that is sharp and usable because I made a few blades but haven't finished making any gunflints out of them .
