With musketeers on the other side, there's no such risk; they can take their time and pick their target at a greater effective range. The elaborate multi-colored art on the back was on par with many of the famous paintings and sculptures that could be found in famous museums. Page 1 of 1 Start over Page 1 of 1.

A good day to you, sir. Once the Strait of Gibraltar is secured, the Caliphate will await the arrival of the Mediterranean pirates who were just pulling in to the harbor. One side is wielding early muskets, about the strength of muskets Europe had when setting up colonies on the New World. Book I of the Temujin Saga. Source for much of the above, particularly the section comparing to bows. Both sides are wearing little if any armor. Users browsing this forum:
