In contrast, violin family instruments were primarily used for social functions, performed on by professional players. The Cambridge Companion to Mozart. Questo sito utilizza i cookie. A question of strings? In conclusion, it is not a mistake: Ultimately, however, it is not the size of the instrument that determines the type, but rather the tuning that is utilized, which generally makes it possible to classify the instrument as a member of either the viol or violin family. But, what kind of instrument refers Bach, when The Baroque Double Bass Violone speaks of Violone? Both the violin and viol families came into use in the Western world at approximately the same time c. Whether as an overview of 16' usage, the make-up of the basso continuo or with a doubt here Bach meant a great tool that played in the range of 16 feet. In this category we might find bass viols that are tuned in E instead of D where the bottom string is tuned an extra step lower, to a low C.
